THROUGH **SHAW SPORTS TURF'S FINANCING PROGRAM,** YOU CAN LEVERAGE YOUR CAPITAL & BUILD YOUR TEAM.

LET'S TAKE A LOOK AT HOW IT WORKS & THE ADVANTAGES OF THE PROGRAM.

WHO IS SHAW SPORTS TURF?

Shaw Sports Turf is the right team to back yours. With over 1,500 successful installations around the U.S., Shaw Sports Turf offers a legacy of extraordinary performance and innovation driven by Shaw Industries Group, a Berkshire Hathaway Company. In other words, Shaw Sports Turf is a financially sound company with staying power.

WHY SYNTHETIC TURF? WHY NOW?

The growth in synthetic turf fields in the U.S. is on the rise. Synthetic turf provides:

> a great looking facility, builds support for the program

> reduces the time and money spent on maintenance

> gives teams more availability to practice and play

> provides consistent performance over years of use

> is safe for players

WHAT'S STOPPING YOU?

Synthetic turf is no small investment. Synthetic turf systems can be very expensive and can require years of political maneuvering and fundraising efforts to see an installation take place.

HOW DOES IT WORK?

With Shaw Sports Turf's financing plan, we can work with you to provide flexible payment terms tailored to meet your special needs and requirements. A variety of custom options are available to you, so contact your Shaw Sports Turf Territory Manager to discuss how the plan can work for you.

WHAT ARE SOME OF THE OTHER BENEFITS?

> Financing a field through Shaw Sports Turf is easy.

> By allowing you to install a field now instead of years down the road, it puts you on par with your competition, now.

> It allows you to conserve capital which can be used for growth or to meet emergency needs.

> It allows you to extend your borrowing power and keeps credit lines open.

> It allows you the opportunity to upgrade to your dream field.

> It allows you to compress your multi-field expansion timeline.

> It allows you to rest with the confidence you've chosen a teammate that's got your back, on the field…..and off.
